E-Commerce

If you sell your products using online auctions, classified services or your own Web Site iShip.com can offer you a way to not only show your Buyers what they will pay for shipping, but also automate the entire post-sale process

We will help you notify the Buyer of the total sale price - including shipping, getting the Buyer's shipping selections, getting the shipping address and even collecting credit card information for you to process. We can also let you add your business's handling charges without having to calculate percentages or subtotals. We do the work for you.

To setup your Selling Preferences you will need to do only three easy steps:

1. Select the services you will use to ship your products. The Buyers will see only the services you select.
2. Select how your shipping charges are displayed. Is your shipping included in the sale? Do you charge for handling? We will make sure the price is right.
3. Select what kinds of payment you accept. We will find out how the Buyer is going to pay. We will even collect credit card information for you to process.

You can set these preferences up now or later, but if you would like to do it now, press Continue. Otherwise, press Finish to complete registration.

FIG. 35

Figure 1 is a screenshot of a web application interface for shipping services. The interface includes a "Rates & Times" section with a table of shipping rates and times for various carriers (Airborne, FedEx, UPS, USPS, iSHIP.COM). The table has columns for dates (TUE 28 SEP 99, WED 29 SEP 99, THU 30 SEP 99) and times (8:00 AM, 10:30 AM, 12:00 PM, 3:00 PM, 4:30 PM, 5:00 PM). The rates are displayed in a grid format with different shading patterns. Below the table is a "Find Location" button. To the right of the table is a "Compare Services" section with buttons for "<< Back", "Next >>", "Reset", "Cancel", and "Help". The interface also includes a "Date you expect to ship your package" dropdown menu and a "Click on the price to select a delivery date, time and carrier" instruction.

My Shipping		Shipping Preferences		View Shipping Log		Ship a Package		Price a Package		Send Ship Notify.		<input type="button" value="End of Day"/> Print a driver record for packages shipped.		
UPS End of Day												UPS requires its customers using computer based shipping systems to perform "End-of-Day" at least once each day a package is shipped. This will produce a driver record and send an electronic record of your packages to UPS, ensuring proper billing. This is only required, however, if you are using your own UPS account. You should perform End and print your driver record before the driver arrives.		
Log Off												You have shipped XX packages since your last driver pickup.		
												To print a driver record, press Perform End .		
												<input type="button" value="Reprint"/> Reprint a driver record from a previous End-of-Day.		
												Occasionally you might need to reprint a driver record if the original was lost, damaged or was otherwise unreadable by the driver. To reprint a driver record from a previous date click Find Driver Record below. You will be shown a list of previous records in the order they were created, the most recent at the top of the list.		
												<input type="button" value="Find Driver Record"/>

Track It

Welcome John Shipper to your Track It service, which works in the background to keep tabs on your deliveries. Always know where your packages are - we'll track your packages so you don't have to.

- Check your shipping log to see whether your packages have been delivered, and if so, who signed for them.
- Select Add Inbound Package to enter a tracking number for us to track round-the-clock. View the tracking results in View Inbound Packages.
- Review package histories and cost in your comprehensive Shipping Log.
